Increase of the cost of the extra-curricular professional traineeship

The monthly allowance for traineeships cannot be less than €608.00.

From May onwards, the monthly allowance for the traineeship will be increased, and no longer will be based on the value of the Social Support Index (currently €480.83) but on to the minimum monthly wage. Thus, during the internship period, the promoting entity will have to pay the trainee a monthly internship allowance, which cannot be less than €608.00 (corresponding to 80% of the current minimum monthly wage).
