Renewable Energy Technology Free Zone - Viana do Castelo

Order no. 298/2023 of October 4 was published, which delimits the technology-free zone (ZLT) for renewable energies of ocean origin or location off the coast of Viana do Castelo.

Article 217 of Decree-Law no. 15/2022, of January 14, provides for the creation of an offshore and nearshore renewable energy ZLT - by order of the members of the Government responsible for the energy and sea areas - to be located in Viana do Castelo, aimed at establishing innovation and development projects for the production of electricity from renewable energy from an ocean source or location.

In this context, Ministerial Order no. 298/2023 of October 4 was published, which comes into force the day after its publication, and delimits the ZLT.

Consult the Ordinance [here](#) and the Annex, which contains the definition of the coordinates and the representation of the spatialization that make up the delimitation.
