STRENGTHENING OF COLECTIVE LABOUR LAW

It is now foreseen the access to public aid or financing for companies that are part of new collective bargaining agreements.

Companies that are party to a collective bargaining agreement that has been concluded or renewed within 3 years, may benefit from public aid or financing, including European funds and tax incentives.

Also, the right to develop trade union activity in the company is extended and may now occur in companies where there are no employees affiliated to trade unions.
