New rights and duties of information and consultation

Employees have the right to consult and submit comments on the merger project.

Decree-Law no. 114-D/2023, of December 5, comes into force today, transposing the Directive (EU) 2019/2121, as regards cross-border transformations, mergers, and demergers.

This legislation amends the Portuguese Commercial Companies Code and establishes a set of special rights and duties to inform and consult employees and their representatives in the event of a merger, demerger or transformation of companies.
