

SRS Advogados is a full-service, multi-practice law firm advising clients on all aspects of domestic, as well as international law.

Our lawyers are focused on their clients' business and have gained knowledge and experience advising large national and international corporate groups, financial institutions, as well as local and national authorities.

We are organised by specialist practice areas and sector groups. This dynamic structure allows the firm to combine a diverse range of legal experts within a group, all of whom have relevant sector knowledge and experience. Sector groups have an extensive understanding of areas in which our clients operate and assist clients in fulfilling their objectives. We know our clients' business and regard ourselves as an active and dynamic part of it.

Since the founding of the firm, the energy sector has been one of the four main sector focuses of the firm, and is one of its core practice areas.

We pride ourselves on our in-depth knowledge of the sector and the global market, and are well equipped to support energy sector clients in all manner of operations, and we have been involved in some of the most important cases in the energy sector in Portugal. Our experience covers coal, electricity, gas, oil and renewable energy.

In addition to our experienced energy team we have the knowledge and legal capability in those areas most relevant for energy companies, such as: administrative, arbitration, capital markets, competition, contracts, corporate, employment, environment, European, litigation, privatisations, project finance and asset finance, regulatory and tax.

Through the creation of SRS Global (Angola, Brazil, Macau, Malta, Mozambique, Portugal and Singapore), as well the creation of a strong network of international relationships with third parties, we aim to extend our experience, expertise and services globally so as to ensure that we can respond efficiently to complex issues with global implications.
