

## ENVIRONMENT

SRS Advogados is a full-service, multi-practice law firm advising clients on all aspects of domestic, as well as international law.

Our lawyers are focused on their clients' business and have gained knowledge and experience advising large national and international corporate groups, financial institutions, as well as local and national authorities.

We are organised by specialist practice areas and sector groups. This dynamic structure allows the firm to combine a diverse range of legal experts within a group, all of whom have relevant sector knowledge and experience. Sector groups have an extensive understanding of areas in which our clients operate and assist clients in fulfilling their objectives. We know our clients' business and regard ourselves as an active and dynamic part of it.

The SRS Advogados Environmental team advises on large environmental projects (particularly in the context of energy and urban planning).

We work across many areas including climate change, environmental pollution, safety and waste. We have extensive experience of:

- > environmental impact assessments
- > licensing and licensing of emissions and carbon market
- > contracting for energy efficiency
- > renewable energy (biomass, hydro, solar and wind)
- > due diligence, especially in the context of pre-litigation and environmental litigation.

Through the creation of SRS Global (Angola, Brazil, Macau, Malta, Mozambique, Portugal and Singapore), as well the creation of a strong network of international relationships with third parties, we aim to extend our experience, expertise and services globally so as to ensure that we can respond efficiently to complex issues with global implications.

### AREAS OF FOCUS

- > Environmental funds
- > Environmental litigation
- > Environmental taxation
- > Impact assessments
- > Liability
- > Licensing and licensing of emissions and carbon market
- > Renewable energy
