

SRS Advogados is a full-service, multi-practice law firm advising clients on all aspects of domestic, as well as international law.

Our lawyers are focused on their clients' business and have gained knowledge and experience advising large national and international corporate groups, financial institutions, as well as local and national authorities.

We are organised by specialist practice areas and sector groups. This dynamic structure allows the firm to combine a diverse range of legal experts within a group, all of whom have relevant sector knowledge and experience. Sector groups have an extensive understanding of areas in which our clients operate and assist clients in fulfilling their objectives. We know our clients' business and regard ourselves as an active and dynamic part of it.

SRS Advogados' Intellectual Property team comprises lawyers with expertise in industrial property, copyright and related rights. Our team has experience of advising national and international companies operating in a wide range of sectors, including construction, consumer goods, health and pharmaceuticals, information technology, real estate, telecommunications as well as tourism.

Our principle aim is to enable our clients to reach their goals by providing a high-quality and comprehensive service. Our intellectual property services include administrative work, co-operation with relevant national and international bodies, consulting and litigation (administrative, arbitration and judicial).

The Intellectual Property team includes lawyers who are experienced in corporate and commercial law, as well as litigation, meaning we are well positioned to coordinate complex projects and respond effectively to challenges.

Through the creation of SRS Global (Angola, Brazil, Macau, Malta, Mozambique, Portugal and Singapore), as well the creation of a strong network of international relationships with third parties, we aim to extend our experience, expertise and services globally so as to ensure that we can respond efficiently to complex issues with global implications.

INTELLECTUAL PROPERTY
