

SRS Advogados is a full-service, multi-practice law firm advising clients on all aspects of domestic, as well as international law.

Our lawyers are focused on their clients' business and have gained knowledge and experience advising large national and international corporate groups, financial institutions, as well as local and national authorities.

We are organised by specialist practice areas and sector groups. This dynamic structure allows the firm to combine a diverse range of legal experts within a group, all of whom have relevant sector knowledge and experience. Sector groups have an extensive understanding of areas in which our clients operate and assist clients in fulfilling their objectives. We know our clients' business and regard ourselves as an active and dynamic part of it.

The Life Sciences team at SRS Advogados provides assistance to the pharmaceutical and biotechnology industry in all stages of the life cycle of medicinal products, as well as to the medical devices industry and health products and cosmetics products as well as food for Special purposes Industry.

The team also provide assistance to cell and tissue banks, having increasingly gained and developed expertise in this area.

The lawyers of the Life Sciences team have significant experience and in-depth knowledge of pharmaceutical and biotechnology companies since the early stage of their incorporation and set-up in Portugal, as well as in the I&D stage, including all legal aspects regarding clinical trials to be performed in Portugal, in particular filings of applications for authorisation to commence clinical trial agreements with medical institutions, trial centres and investigators.

Our experience also includes:

- > Legal assistance to protect IP rights, trademarks and patents, and all regulatory procedures required to obtain a marketing authorisation and other licensing procedures and, in general, all regulatory matters related with the life cycle of medicinal products
- > Pricing of medicinal products, state reimbursements and the establishment of distribution structures, as well as commercial practices, including discounts, promotions and events, and advice on legal regulations applicable to the sales and marketing of medicinal products in general, both in the pharmacy market as well as in the hospital market
- > Licensing of human cells and tissue banks and activities related with the donation, procurement, cryopreservation, storage and use of human stem cells and tissues
- > Advising university spin-outs and the financing of projects in that area
- > Advice, mediate and manage the relationship between our clients and all Local Regulators and Authorities

The Life Sciences team provides its services in alignment with the management/board of medical directors, compliance and regulatory directors and commercial directors of its client companies in order to:

- > Advise and implement clients' projects

LIFE SCIENCES & HEALTHCARE

- > Ensure full conformity with the legal rules governing the full life cycle of the covered areas
- > Prevent breach of applicable legal and regulatory rules
- > Ensure an efficient defence in proceedings involving the clients

Through the creation of SRS Global (Angola, Brazil, Macau, Malta, Mozambique, Portugal and Singapore), as well the creation of a strong network of international relationships with third parties, we aim to extend our experience, expertise and services globally so as to ensure that we can respond efficiently to complex issues with global implications.
