

SRS Advogados is a full-service, multi-practice law firm advising clients on all aspects of domestic, as well as international law.

Our lawyers are focused on their clients' business and have gained knowledge and experience advising large national and international corporate groups, financial institutions, as well as local and national authorities.

We are organised by specialist practice areas and sector groups. This dynamic structure allows the firm to combine a diverse range of legal experts within a group, all of whom have relevant sector knowledge and experience. Sector groups have an extensive understanding of areas in which our clients operate and assist clients in fulfilling their objectives. We know our clients' business and regard ourselves as an active and dynamic part of it.

The IT team of SRS Advogados is composed of lawyers specialized in technology law, with a vast experience in advising national and international companies on areas such as outsourcing, software licensing, development and distribution, digital security, social networks and e-transitions (B2B and B2C).

Our team has also acquired extensive know-how in matters related to privacy and data protection, which require specialized advice. Although our team's approach in this area is multi-sector, we cover more specifically the telecommunications, media, IT, health and pharmaceutical sectors, as well as banking and insurance.

Our main goal is to make sure that our Clients reach their goals, by providing a quality service. Given our sectorial focus, we work in order to understand our client's business and to anticipate their concerns, in order to find the best solutions for their problems. We position ourselves as our Clients' partners.

Given the experience of the members of our team, we are fully capable of coordinating and carrying out international projects. Our IT, Privacy and DATA Protection practice offers Clients integrated solutions, as we work closely with other departments in our firm, namely in the areas of industrial and intellectual property, dispute resolution, administrative law and administrative offences.

Through the creation of SRS Global (Angola, Brazil, Macau, Malta, Mozambique, Portugal and Singapore), as well the creation of a strong network of international relationships with third parties, we aim to extend our experience, expertise and services globally so as to ensure that we can respond efficiently to complex issues with global implications.
