

SRS Advogados is a full-service, multi-practice law firm advising clients on all aspects of domestic, as well as international law.

Our lawyers are focused on their clients' business and have gained knowledge and experience advising large national and international corporate groups, financial institutions, as well as local and national authorities.

We are organised by specialist practice areas and sector groups. This dynamic structure allows the firm to combine a diverse range of legal experts within a group, all of whom have relevant sector knowledge and experience. Sector groups have an extensive understanding of areas in which our clients operate and assist clients in fulfilling their objectives. We know our clients' business and regard ourselves as an active and dynamic part of it.

With over 20 years of hands-on experience, the TMT team at SRS Advogados has acquired in depth knowledge of the telecommunications, media and information technologies sectors, and participated in some of the leading projects within the TMT sector in Portugal, assisting a wide range of domestic and international clients.

The team comprises lawyers specialised in all areas of telecommunications law (fixed and mobile networks), media and information technologies, including in the regulation of electronic communications and regulation of content, Internet sales and e-commerce in general, domain names, as well as software licensing, development and distribution. We also advise operators of postal services in multiple projects.

The lawyers in the team have extensive experience in the negotiation and drafting of complex contracts within the TMT sector, as well as in the legal assistance of conflicts between operators, disputes with the telecom, media and competition regulatory authorities and with consumers.

Our team is also specialised in all matters relating to data protection and privacy and advises clients on domestic and international projects.

Given our experience, we have the capacity to coordinate and execute projects with an international dimension. The TMT group offers an integrated solution to clients, and works closely with other departments of the firm, such as in the context of intellectual property, competition and public law litigation.

TMT | TELECOMMUNICATIONS, MEDIA AND TECHNOLOGY

Through the creation of SRS Global (Angola, Brazil, Macau, Malta, Mozambique, Portugal and Singapore), as well the creation of a strong network of international relationships with third parties, we aim to extend our experience, expertise and services globally so as to ensure that we can respond efficiently to complex issues with global implications.
