

PRIVACY AND DATA PROTECTION - GDPR

SRS Advogados is a full-service, multi-practice law firm advising clients on all aspects of domestic, as well as international law.

Our lawyers are focused on their clients' business and have gained knowledge and experience advising large national and international corporate groups, financial institutions, as well as local and national authorities.

We are organised by specialist practice areas and sector groups. Each group has a thorough knowledge of the area in which the clients operate, thus adding value to the service provided.

Our team has acquired extensive know-how in matters related to privacy and data protection, which require specialized advice. Although our team's approach in this area is multi-sector, we cover more specifically the telecommunications, media, IT, health and pharmaceutical sectors, as well as banking, insurance and agri-food companies.

Our main goal is to make sure that our Clients reach their goals, by providing a quality service. Given our sectorial focus, we work in order to understand our client's business and to anticipate their concerns, so to find the best solutions for their problems. We position ourselves as our Clients' partners in every service we provide.

Given the experience of the members of our team, we are fully capable of coordinating and carrying out international projects. Our Privacy and Data Protection practice offers Clients integrated solutions, as we work closely with other departments in our firm, namely in the areas of industrial and intellectual property, dispute resolution, administrative law and administrative offences.

Through the creation of SRS Global (Angola, Brazil, Macau, Malta, Mozambique, Portugal and Singapore), as well the creation of a strong network of international relationships with third parties, we aim to extend our experience, expertise and services globally so as to ensure that we can respond efficiently to complex issues with global implications.

AREAS OF FOCUS

PERSONAL DATA PROTECTION

- > Data Protection audits for assessment of compliance with applicable rules, namely the General Data Protection Regulation (GDPR);
- > Privacy and data protection policies, including collection of data over the Internet;
- > Support to impact assessments and management of security incidents/data breaches;
- > International data transfers, including model clauses and binding corporate rules;
- > Address issues concerning the collection of camera surveillance and biometric data;
- > Administrative proceedings and replies to supervising actions by the Portuguese Data Protection Authority (CNPD);
- > Daily support to the implementation of GDPR;
- > Advice regarding online data processing and direct marketing.
