

SRS Advogados is a full-service, multi-practice law firm advising clients on all aspects of domestic, as well as international law.

Our lawyers are focused on their clients' business and have gained knowledge and experience advising large national and international corporate groups, financial institutions, as well as local and national authorities.

We are organised by specialist practice areas and sector groups. This dynamic structure allows the firm to combine a diverse range of legal experts within a group, all of whom have relevant sector knowledge and experience. Sector groups have an extensive understanding of areas in which our clients operate and assist clients in fulfilling their objectives. We know our clients' business and regard ourselves as an active and dynamic part of it.

SRS Advogados' team in the wine producing sector comprises lawyers that bring together talents in the areas of commercial, competition, taxation, real estate, employment, intellectual property, regulation (production and distribution) and insurance.

This multidisciplinary team has extensive experience in providing legal advice to companies at home and abroad in response to the growing importance of the wine producing sector in recent years in the Portuguese economy, in particular with the significant rise of Portuguese exports.

Our aim is to provide comprehensive legal support to business owners in this sector, in order to respond to their needs and to find the most appropriate solutions to their problems.

Our services in the wine producing sector cover all related areas of law, in particular: distribution of wine; litigation (administrative, arbitration and judicial); monitoring the company's foreign expansion process; registration of intellectual property rights and regulation of the production.

The robust experience and a number of strategic partnerships established with the biggest national and international organizations in the sector enable our team to coordinate and implement projects with a strong international component and provide specialized technical advice in all areas of the area.

Through the creation of SRS Global (Angola, Brazil, Macau, Malta, Mozambique, Portugal and Singapore), as well as the creation of a strong network of international relationships with third parties, we aim to extend our experience, expertise and services globally so as to ensure that we can respond efficiently to complex issues with global implications.

WINE
